## NOTICES

## GOVERNMENT MOTION

10. *Debated October 24, 25, 28, 29, 31, November 1 and 4, 1985.*
- 

MOTION OF NON CONFIDENCE  
UNDER STANDING ORDER 63

1. *Mr. Grossman*—Notice—That this House condemns the Government of Ontario for its incompetence, specifically its failure to discharge its duty to protect the overall interests of the people of Ontario, the Canadian Aerospace Industry and the employees of de Havilland Aircraft Ltd., and its failure to apprise itself fully of all relevant details of the sale of de Havilland to the Boeing Corporation, and its failure to make any adequate representations whatsoever on behalf of those Ontario and Canadian interests, and therefore for these reasons this Government lacks the confidence of this House.

## PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
4. *Ms. Bryden*—Resolution—That in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a Charter of Rights for Part-Time Workers be added to both the Employment Standards Act and the Labour Relations Act

to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.

8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.

9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:

- (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
- (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lender) the

judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.

10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
24. *Mr. Ward*—Resolution—That in the opinion of this House, the Province of Ontario, should ensure that adoptive parents and adopted children have access to non-identifying information concerning the birth parents and the rights of access to this non-identifying information, when available, should be guaranteed.
25. *Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.
26. *Mr. Davis*—Resolution—That in the opinion of this House, recognizing the changes in delivery of education programs on a semestered basis across the Province, the experience of the students in Wellington County, the concern of various sectors of the education community over certain technical difficulties, a select committee be established to review the School Boards and Teachers Collective Negotiations Act to ensure that in the future the bargaining process will be carried out in a manner that most effectively guarantees the least possible disruption to the education of our children.
27. *Mr. South*—Resolution—That in the opinion of this House, since many companies, institutions and municipalities in Ontario take water directly from our natural watercourses and groundwater and, after processing it, discharge the used water back into those watercourses, thus putting a substantial stress on the environment, the Government of Ontario should introduce legislation to establish a fund for the restoration and preservation of the environment by assessing a charge to be levied on all large prime water takers in Ontario and based on the amount of water taken.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the

testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.

## MOTIONS RELATING TO THE PROVISIONS OF THE REPORT UPON THE REDISTRIBUTION OF ONTARIO INTO ELECTORAL DISTRICTS

1 to 36. *Debated July 5, October 15, 17 and 25, 1985.*

37. *Mr. Knight*—Motion—That, pursuant to the Order of the House of November 30, 1984, consideration be given by the House to an objection to the provisions of the Report of the Ontario Electoral Boundaries Commission respecting the Electoral District of Halton-Burlington on the grounds set forth hereinafter:

1. The Commission failed to give adequate attention and consideration to geographical, political and demographic factors when planning the redistribution of electoral boundaries within the Province, factors which are specifically provided for by Paragraph 6, subsections (a) through (h) in the June 16, 1983, Resolution of the Legislative Assembly that established the Commission.
2. The Commission failed to give due consideration to the existing and traditional boundaries of Electoral Districts as specified in Paragraph 6, subsection (g), of the June 16, 1983, Resolution of the Legislative Assembly by dividing the Halton-Burlington Riding east and west instead of the traditional north and south.
3. The Commission has ignored the traditional community of interest between Milton and Halton Hills, a community of interest which does not exist to the same degree between Milton and Burlington.
4. The Commission has ignored the fact that within the Region of Halton most agencies consider the North Halton area as a distinct community from the south and have structured most agencies in a manner to reflect this reality.
5. The Commission failed to give and pay proper attention to the physical, family, economic and community of interest factors.
6. And such other objections that the undersigned Members may consider applicable in order to carry out the spirit and terms and conditions of the redistribution of Ontario Electoral Districts.

*Signatures of Members supporting this Motion:*

Joseph Cordiano (Downsview)  
 Rick Ferraro (Wellington South)  
 James Henderson (Humber)  
 Remo Mancini (Essex South)  
 Steve Offer (Mississauga North)  
 Claudio Polsinelli (Yorkview)  
 Douglas R. Reycraft (Middlesex)  
 David W. Smith (Lambton)  
 Laurence South (Frontenac-Addington)  
 Chris Ward (Wentworth North)

38. *Mrs. Marland*—Motion—That, pursuant to the Order of the House of November 30, 1984, consideration be given by the House to an objection to the provisions of the Report of the Ontario Electoral Boundaries Commission respecting the Electoral District of Mississauga South on the grounds set forth hereinafter:

1. The Commission failed to give adequate attention and consideration to geographical, political and demographic factors when planning the redistribution of electoral boundaries within the Province, factors which are specifically provided for by Paragraph 6, subsections (a) through (h) in the June 16, 1983, Resolution of the Legislative Assembly that established the Commission.
2. The Commission failed to give adequate attention and consideration to the community or diversity of interests as specified in Paragraph 6, subsection (a) of the June 16, 1983, Resolution of the Legislative Assembly by amalgamating a distinct and separate community, Lawton Heights, east of Cawthra Road, north of the Queen Elizabeth Highway, with traditional organized neighbourhoods represented by homeowners and/or residents' associations contained in the existing Riding of Mississauga South.

In so doing, the Commission ignored the question of unity and community of interest thereby rendering more difficult adequate representation of the people in Parliament.

3. The Commission failed to give due consideration to the topographical features as specified in Paragraph 6, subsection (b) of the June 16, 1983, Resolution of the Legislative Assembly by discounting the influence of existing major roadways, Highway No. 10 on the west and the Queen Elizabeth Highway on the south, which have tended to serve as natural geographic barriers between communities of people.
4. The Commission failed to give due consideration to the existing boundaries of municipalities or wards thereof as specified in Paragraph 6, subsection (f) of the June 16, 1983, Resolution of the Legislative Assembly by discounting the influence of existing traditional municipal wards boundaries which serve to separate and distinguish neighbourhood organizations. By amalgamating a portion of Ward 7 with Ward 1 it appears that the Commission failed to give due consideration to the demands placed on the Member of the Provincial Parliament for the Riding in question, thereby rendering more difficult adequate representation of the people in Parliament.
5. The Commission failed to give due consideration to the existing and traditional boundaries of electoral districts as specified in Paragraph 6, subsection (g) of the June 16, 1983, Resolution of the Legislative Assembly by extending the northern boundary of the Riding to Dundas Street, despite the fact that the current northern boundary, Queen Elizabeth Highway represents a natural extension in comparison to existing ward boundaries, and preserves the physical, social and economic cohesion of the present electoral district.

6. The Commission failed to give due consideration to special geographic considerations, including the accessibility of such regions or the size or shape thereof as specified in Paragraph 6, subsection (h) of the June 16, 1983, Resolution of the Legislative Assembly by increasing the size of the riding in north-south terms and adding a community at the north end separated from the rest of the riding by the Queen Elizabeth Highway.

At the same time, the Commission failed to facilitate the need for ease of transportation and communication, thereby rendering more difficult adequate representation of the people in Parliament.

7. And such other objections that the undersigned Members may consider applicable in order to carry out the spirit and terms and conditions of the redistribution of Ontario Electoral Districts.

*Signatures of Members supporting this Motion:*

 Peter Partington (Brock)  
 W. Earl Rowe (Simcoe Centre)

39. *Mr. Cordiano*—Motion—That, pursuant to the Order of the House of November 30, 1984, consideration be given by the House to an objection to the provisions of the Report of the Ontario Electoral Boundaries Commission respecting the Electoral District of Downsview on the grounds set forth hereinafter:

1. The Commission failed to give adequate attention and consideration to geographical, political and demographic factors when planning the redistribution of electoral boundaries within the Province, factors which are specifically provided for by Paragraph 6, subsections (a) through (h) in the June 16, 1983, Resolution of the Legislative Assembly that established the Commission.
2. The Commission did not give adequate consideration to all the representations made to the Commission during the course of the Public Hearings.
3. The Commission failed to give adequate consideration to the existing boundaries of the riding, and placed too much emphasis on population Quotas in determining boundaries for the Proposed Electoral District of Downsview.
4. The Commission failed to give adequate consideration to the cultural links uniting the people North of Highway 401 and South of Sheppard

Avenue (between Jane Street on the west and the Allen Expressway on the east) with the people South of Highway 401 and North of the North York city limit (between Jane Street on the west and C.N. railway lines on the east).

5. And such other objections that the undersigned Members may consider applicable in order to carry out the spirit and terms and conditions of the redistribution of Ontario Electoral Districts.

*Signatures of Members supporting this Motion:*

To be debated Thursday, December 12, 1985.*

### Ballot Item No. 11

*Mr. Davis—Resolution—That in the opinion of this House, recognizing the changes in delivery of education programs on a semestered basis across the Province, the experience of the students in Wellington County, the concern of various sectors of the education community over certain technical difficulties, a select committee be established to review the School Boards and Teachers Collective Negotiations Act to ensure that in the future the bargaining process will be carried out in a manner that most effectively guarantees the least possible disruption to the education of our children. To be debated Thursday, December 19, 1985.*

### Ballot Item No. 12

*Mr. Lupusella—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses. To be debated Thursday, December 19, 1985.*

## Ballot Item No. 13

*Mr. South*—Resolution—That in the opinion of this House, since many companies, institutions and municipalities in Ontario take water directly from our natural watercourses and groundwater and, after processing it, discharge the used water back into those watercourses, thus putting a substantial stress on the environment, the Government of Ontario should introduce legislation to establish a fund for the restoration and preservation of the environment by assessing a charge to be levied on all large prime water takers in Ontario and based on the amount of water taken.

## Ballot Item No. 14

*Second Reading* Bill 71, An Act to protect the Public Health and Comfort and the Environment by Prohibiting and Controlling Smoking in Public Places. *Mr. Sterling*.

## Ballot Item No. 27

*Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.

## NOTICES

### GOVERNMENT MOTION

10. *Debated October 24, 25, 28, 29, 31, November 1 and 4, 1985.*
- 

### MOTION OF NON CONFIDENCE UNDER STANDING ORDER 63

1. *Mr. Grossman*—Notice—That this House condemns the Government of Ontario for its incompetence, specifically its failure to discharge its duty to protect the overall interests of the people of Ontario, the Canadian Aerospace Industry and the employees of de Havilland Aircraft Ltd., and its failure to apprise itself fully of all relevant details of the sale of de Havilland to the Boeing Corporation, and its failure to make any adequate representations whatsoever on behalf of those Ontario and Canadian interests, and therefore for these reasons this Government lacks the confidence of this House.
-

## PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
4. *Ms. Bryden*—Resolution—That in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a Charter of Rights for Part-Time Workers be added to both the Employment Standards Act and the Labour Relations Act

to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.

8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.

9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:

- (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
- (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lender) the

judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.

10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
24. *Mr. Ward*—Resolution—That in the opinion of this House, the Province of Ontario, should ensure that adoptive parents and adopted children have access to non-identifying information concerning the birth parents and the rights of access to this non-identifying information, when available, should be guaranteed.
25. *Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.
26. *Mr. Davis*—Resolution—That in the opinion of this House, recognizing the changes in delivery of education programs on a semestered basis across the Province, the experience of the students in Wellington County, the concern of various sectors of the education community over certain technical difficulties, a select committee be established to review the School Boards and Teachers Collective Negotiations Act to ensure that in the future the bargaining process will be carried out in a manner that most effectively guarantees the least possible disruption to the education of our children.
27. *Mr. South*—Resolution—That in the opinion of this House, since many companies, institutions and municipalities in Ontario take water directly from our natural watercourses and groundwater and, after processing it, discharge the used water back into those watercourses, thus putting a substantial stress on the environment, the Government of Ontario should introduce legislation to establish a fund for the restoration and preservation of the environment by assessing a charge to be levied on all large prime water takers in Ontario and based on the amount of water taken.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the

testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.

## MOTIONS RELATING TO THE PROVISIONS OF THE REPORT UPON THE REDISTRIBUTION OF ONTARIO INTO ELECTORAL DISTRICTS

1 to 36. *Debated July 5, October 15, 17 and 25, 1985.*

37. *Mr. Knight*—Motion—That, pursuant to the Order of the House of November 30, 1984, consideration be given by the House to an objection to the provisions of the Report of the Ontario Electoral Boundaries Commission respecting the Electoral District of Halton-Burlington on the grounds set forth hereinafter:

1. The Commission failed to give adequate attention and consideration to geographical, political and demographic factors when planning the redistribution of electoral boundaries within the Province, factors which are specifically provided for by Paragraph 6, subsections (a) through (h) in the June 16, 1983, Resolution of the Legislative Assembly that established the Commission.
2. The Commission failed to give due consideration to the existing and traditional boundaries of Electoral Districts as specified in Paragraph 6, subsection (g), of the June 16, 1983, Resolution of the Legislative Assembly by dividing the Halton-Burlington Riding east and west instead of the traditional north and south.
3. The Commission has ignored the traditional community of interest between Milton and Halton Hills, a community of interest which does not exist to the same degree between Milton and Burlington.
4. The Commission has ignored the fact that within the Region of Halton most agencies consider the North Halton area as a distinct community from the south and have structured most agencies in a manner to reflect this reality.
5. The Commission failed to give and pay proper attention to the physical, family, economic and community of interest factors.
6. And such other objections that the undersigned Members may consider applicable in order to carry out the spirit and terms and conditions of the redistribution of Ontario Electoral Districts.

 Chris Ward (Wentworth North)

38. *Mrs. Marland*—Motion—That, pursuant to the Order of the House of November 30, 1984, consideration be given by the House to an objection to the provisions of the Report of the Ontario Electoral Boundaries Commission respecting the Electoral District of Mississauga South on the grounds set forth hereinafter:

1. The Commission failed to give adequate attention and consideration to geographical, political and demographic factors when planning the redistribution of electoral boundaries within the Province, factors which are specifically provided for by Paragraph 6, subsections (a) through (h) in the June 16, 1983, Resolution of the Legislative Assembly that established the Commission.
2. The Commission failed to give adequate attention and consideration to the community or diversity of interests as specified in Paragraph 6, subsection (a) of the June 16, 1983, Resolution of the Legislative Assembly by amalgamating a distinct and separate community, Lawton Heights, east of Cawthra Road, north of the Queen Elizabeth Highway, with traditional organized neighbourhoods represented by homeowners and/or residents' associations contained in the existing Riding of Mississauga South.

In so doing, the Commission ignored the question of unity and community of interest thereby rendering more difficult adequate representation of the people in Parliament.

3. The Commission failed to give due consideration to the topographical features as specified in Paragraph 6, subsection (b) of the June 16, 1983, Resolution of the Legislative Assembly by discounting the influence of existing major roadways, Highway No. 10 on the west and the Queen Elizabeth Highway on the south, which have tended to serve as natural geographic barriers between communities of people.
4. The Commission failed to give due consideration to the existing boundaries of municipalities or wards thereof as specified in Paragraph 6, subsection (f) of the June 16, 1983, Resolution of the Legislative Assembly by discounting the influence of existing traditional municipal wards boundaries which serve to separate and distinguish neighbourhood organizations. By amalgamating a portion of Ward 7 with Ward 1 it appears that the Commission failed to give due consideration to the demands placed on the Member of the Provincial Parliament for the Riding in question, thereby rendering more difficult adequate representation of the people in Parliament.
5. The Commission failed to give due consideration to the existing and traditional boundaries of electoral districts as specified in Paragraph 6, subsection (g) of the June 16, 1983, Resolution of the Legislative Assembly by extending the northern boundary of the Riding to Dundas Street, despite the fact that the current northern boundary, Queen Elizabeth Highway represents a natural extension in comparison to existing ward boundaries, and preserves the physical, social and economic cohesion of the present electoral district.

6. The Commission failed to give due consideration to special geographic considerations, including the accessibility of such regions or the size or shape thereof as specified in Paragraph 6, subsection (h) of the June 16, 1983, Resolution of the Legislative Assembly by increasing the size of the riding in north-south terms and adding a community at the north end separated from the rest of the riding by the Queen Elizabeth Highway.

At the same time, the Commission failed to facilitate the need for ease of transportation and communication, thereby rendering more difficult adequate representation of the people in Parliament.

7. And such other objections that the undersigned Members may consider applicable in order to carry out the spirit and terms and conditions of the redistribution of Ontario Electoral Districts.

39. *Mr. Cordiano*—Motion—That, pursuant to the Order of the House of November 30, 1984, consideration be given by the House to an objection to the provisions of the Report of the Ontario Electoral Boundaries Commission respecting the Electoral District of Downsview on the grounds set forth hereinafter:

1. The Commission failed to give adequate attention and consideration to geographical, political and demographic factors when planning the redistribution of electoral boundaries within the Province, factors which are specifically provided for by Paragraph 6, subsections (a) through (h) in the June 16, 1983, Resolution of the Legislative Assembly that established the Commission.
2. The Commission did not give adequate consideration to all the representations made to the Commission during the course of the Public Hearings.
3. The Commission failed to give adequate consideration to the existing boundaries of the riding, and placed too much emphasis on population Quotas in determining boundaries for the Proposed Electoral District of Downsview.
4. The Commission failed to give adequate consideration to the cultural links uniting the people North of Highway 401 and South of Sheppard

Avenue (between Jane Street on the west and the Allen Expressway on the east) with the people South of Highway 401 and North of the North York city limit (between Jane Street on the west and C.N. railway lines on the east).

5. And such other objections that the undersigned Members may consider applicable in order to carry out the spirit and terms and conditions of the redistribution of Ontario Electoral Districts.

## PRIVATE MEMBERS' BUSINESS TO BE DEBATED

*(Precedence in accordance with the draw of July 11, 1985 and pursuant to Standing Order 64 (d).)*

### Ballot Item No. 9

*Second Reading* Bill 58, An Act to amend the Time Act. *Mr. McClellan. To be debated Thursday, December 12, 1985.*

### Ballot Item No. 10

*Mr. Ward—Resolution—*That in the opinion of this House, the Province of Ontario, should ensure that adoptive parents and adopted children have access to non-identifying information concerning the birth parents and the rights of access to this non-identifying information, when available, should be guaranteed. *To be debated Thursday, December 12, 1985.*

### Ballot Item No. 11

*Mr. Davis—Resolution—*That in the opinion of this House, recognizing the changes in delivery of education programs on a semestered basis across the Province, the experience of the students in Wellington County, the concern of various sectors of the education community over certain technical difficulties, a select committee be established to review the School Boards and Teachers Collective Negotiations Act to ensure that in the future the bargaining process will be carried out in a manner that most effectively guarantees the least possible disruption to the education of our children. *To be debated Thursday, December 19, 1985.*

### Ballot Item No. 12

*Mr. Lupusella—Resolution—*That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses. *To be debated Thursday, December 19, 1985.*

## Ballot Item No. 13

*Mr. South*—Resolution—That in the opinion of this House, since many companies, institutions and municipalities in Ontario take water directly from our natural watercourses and groundwater and, after processing it, discharge the used water back into those watercourses, thus putting a substantial stress on the environment, the Government of Ontario should introduce legislation to establish a fund for the restoration and preservation of the environment by assessing a charge to be levied on all large prime water takers in Ontario and based on the amount of water taken.

## Ballot Item No. 14

*Second Reading* Bill 71, An Act to protect the Public Health and Comfort and the Environment by Prohibiting and Controlling Smoking in Public Places. *Mr. Sterling*.

## Ballot Item No. 27

*Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.

## NOTICES

### GOVERNMENT MOTION

10. *Debated October 24, 25, 28, 29, 31, November 1 and 4, 1985.*
- 

### MOTION OF NON CONFIDENCE UNDER STANDING ORDER 63

1. *Mr. Grossman*—Notice—That this House condemns the Government of Ontario for its incompetence, specifically its failure to discharge its duty to protect the overall interests of the people of Ontario, the Canadian Aerospace Industry and the employees of de Havilland Aircraft Ltd., and its failure to apprise itself fully of all relevant details of the sale of de Havilland to the Boeing Corporation, and its failure to make any adequate representations whatsoever on behalf of those Ontario and Canadian interests, and therefore for these reasons this Government lacks the confidence of this House.
-

## PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
4. *Ms. Bryden*—Resolution—That in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a Charter of Rights for Part-Time Workers be added to both the Employment Standards Act and the Labour Relations Act

to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.

8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.

9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:

- (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
- (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lender) the

judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.

10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
24. *Mr. Ward*—Resolution—That in the opinion of this House, the Province of Ontario, should ensure that adoptive parents and adopted children have access to non-identifying information concerning the birth parents and the rights of access to this non-identifying information, when available, should be guaranteed.
25. *Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.
26. *Mr. Davis*—Resolution—That in the opinion of this House, recognizing the changes in delivery of education programs on a semestered basis across the Province, the experience of the students in Wellington County, the concern of various sectors of the education community over certain technical difficulties, a select committee be established to review the School Boards and Teachers Collective Negotiations Act to ensure that in the future the bargaining process will be carried out in a manner that most effectively guarantees the least possible disruption to the education of our children.
27. *Mr. South*—Resolution—That in the opinion of this House, since many companies, institutions and municipalities in Ontario take water directly from our natural watercourses and groundwater and, after processing it, discharge the used water back into those watercourses, thus putting a substantial stress on the environment, the Government of Ontario should introduce legislation to establish a fund for the restoration and preservation of the environment by assessing a charge to be levied on all large prime water takers in Ontario and based on the amount of water taken.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the

testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.

## MOTIONS RELATING TO THE PROVISIONS OF THE REPORT UPON THE REDISTRIBUTION OF ONTARIO INTO ELECTORAL DISTRICTS

1 to 36. *Debated July 5, October 15, 17 and 25, 1985.*

37. *Mr. Knight*—Motion—That, pursuant to the Order of the House of November 30, 1984, consideration be given by the House to an objection to the provisions of the Report of the Ontario Electoral Boundaries Commission respecting the Electoral District of Halton-Burlington on the grounds set forth hereinafter:

1. The Commission failed to give adequate attention and consideration to geographical, political and demographic factors when planning the redistribution of electoral boundaries within the Province, factors which are specifically provided for by Paragraph 6, subsections (a) through (h) in the June 16, 1983, Resolution of the Legislative Assembly that established the Commission.
2. The Commission failed to give due consideration to the existing and traditional boundaries of Electoral Districts as specified in Paragraph 6, subsection (g), of the June 16, 1983, Resolution of the Legislative Assembly by dividing the Halton-Burlington Riding east and west instead of the traditional north and south.
3. The Commission has ignored the traditional community of interest between Milton and Halton Hills, a community of interest which does not exist to the same degree between Milton and Burlington.
4. The Commission has ignored the fact that within the Region of Halton most agencies consider the North Halton area as a distinct community from the south and have structured most agencies in a manner to reflect this reality.
5. The Commission failed to give and pay proper attention to the physical, family, economic and community of interest factors.
6. And such other objections that the undersigned Members may consider applicable in order to carry out the spirit and terms and conditions of the redistribution of Ontario Electoral Districts.

38. *Mrs. Marland*—Motion—That, pursuant to the Order of the House of November 30, 1984, consideration be given by the House to an objection to the provisions of the Report of the Ontario Electoral Boundaries Commission respecting the Electoral District of Mississauga South on the grounds set forth hereinafter:

1. The Commission failed to give adequate attention and consideration to geographical, political and demographic factors when planning the redistribution of electoral boundaries within the Province, factors which are specifically provided for by Paragraph 6, subsections (a) through (h) in the June 16, 1983, Resolution of the Legislative Assembly that established the Commission.
2. The Commission failed to give adequate attention and consideration to the community or diversity of interests as specified in Paragraph 6, subsection (a) of the June 16, 1983, Resolution of the Legislative Assembly by amalgamating a distinct and separate community, Lawton Heights, east of Cawthra Road, north of the Queen Elizabeth Highway, with traditional organized neighbourhoods represented by homeowners and/or residents' associations contained in the existing Riding of Mississauga South.

In so doing, the Commission ignored the question of unity and community of interest thereby rendering more difficult adequate representation of the people in Parliament.

3. The Commission failed to give due consideration to the topographical features as specified in Paragraph 6, subsection (b) of the June 16, 1983, Resolution of the Legislative Assembly by discounting the influence of existing major roadways, Highway No. 10 on the west and the Queen Elizabeth Highway on the south, which have tended to serve as natural geographic barriers between communities of people.
4. The Commission failed to give due consideration to the existing boundaries of municipalities or wards thereof as specified in Paragraph 6, subsection (f) of the June 16, 1983, Resolution of the Legislative Assembly by discounting the influence of existing traditional municipal wards boundaries which serve to separate and distinguish neighbourhood organizations. By amalgamating a portion of Ward 7 with Ward 1 it appears that the Commission failed to give due consideration to the demands placed on the Member of the Provincial Parliament for the Riding in question, thereby rendering more difficult adequate representation of the people in Parliament.
5. The Commission failed to give due consideration to the existing and traditional boundaries of electoral districts as specified in Paragraph 6, subsection (g) of the June 16, 1983, Resolution of the Legislative Assembly by extending the northern boundary of the Riding to Dundas Street, despite the fact that the current northern boundary, Queen Elizabeth Highway represents a natural extension in comparison to existing ward boundaries, and preserves the physical, social and economic cohesion of the present electoral district.

6. The Commission failed to give due consideration to special geographic considerations, including the accessibility of such regions or the size or shape thereof as specified in Paragraph 6, subsection (h) of the June 16, 1983, Resolution of the Legislative Assembly by increasing the size of the riding in north-south terms and adding a community at the north end separated from the rest of the riding by the Queen Elizabeth Highway.

At the same time, the Commission failed to facilitate the need for ease of transportation and communication, thereby rendering more difficult adequate representation of the people in Parliament.

7. And such other objections that the undersigned Members may consider applicable in order to carry out the spirit and terms and conditions of the redistribution of Ontario Electoral Districts.

39. *Mr. Cordiano*—Motion—That, pursuant to the Order of the House of November 30, 1984, consideration be given by the House to an objection to the provisions of the Report of the Ontario Electoral Boundaries Commission respecting the Electoral District of Downsview on the grounds set forth hereinafter:

1. The Commission failed to give adequate attention and consideration to geographical, political and demographic factors when planning the redistribution of electoral boundaries within the Province, factors which are specifically provided for by Paragraph 6, subsections (a) through (h) in the June 16, 1983, Resolution of the Legislative Assembly that established the Commission.
2. The Commission did not give adequate consideration to all the representations made to the Commission during the course of the Public Hearings.
3. The Commission failed to give adequate consideration to the existing boundaries of the riding, and placed too much emphasis on population Quotas in determining boundaries for the Proposed Electoral District of Downsview.
4. The Commission failed to give adequate consideration to the cultural links uniting the people North of Highway 401 and South of Sheppard

Avenue (between Jane Street on the west and the Allen Expressway on the east) with the people South of Highway 401 and North of the North York city limit (between Jane Street on the west and C.N. railway lines on the east).

5. And such other objections that the undersigned Members may consider applicable in order to carry out the spirit and terms and conditions of the redistribution of Ontario Electoral Districts.

## PRIVATE MEMBERS' BUSINESS TO BE DEBATED

*(Precedence in accordance with the draw of July 11, 1985 and pursuant to Standing Order 64 (d).)*

### Ballot Item No. 9

*Second Reading* Bill 58, An Act to amend the Time Act. *Mr. McClellan. To be debated Thursday, December 12, 1985.*

### Ballot Item No. 10

*Mr. Ward—Resolution—*That in the opinion of this House, the Province of Ontario, should ensure that adoptive parents and adopted children have access to non-identifying information concerning the birth parents and the rights of access to this non-identifying information, when available, should be guaranteed. *To be debated Thursday, December 12, 1985.*

### Ballot Item No. 11

*Mr. Davis—Resolution—*That in the opinion of this House, recognizing the changes in delivery of education programs on a semestered basis across the Province, the experience of the students in Wellington County, the concern of various sectors of the education community over certain technical difficulties, a select committee be established to review the School Boards and Teachers Collective Negotiations Act to ensure that in the future the bargaining process will be carried out in a manner that most effectively guarantees the least possible disruption to the education of our children. *To be debated Thursday, December 19, 1985.*

### Ballot Item No. 12

*Mr. Lupusella—Resolution—*That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses. *To be debated Thursday, December 19, 1985.*

## Ballot Item No. 13

*Mr. South*—Resolution—That in the opinion of this House, since many companies, institutions and municipalities in Ontario take water directly from our natural watercourses and groundwater and, after processing it, discharge the used water back into those watercourses, thus putting a substantial stress on the environment, the Government of Ontario should introduce legislation to establish a fund for the restoration and preservation of the environment by assessing a charge to be levied on all large prime water takers in Ontario and based on the amount of water taken.

## Ballot Item No. 14

*Second Reading* Bill 71, An Act to protect the Public Health and Comfort and the Environment by Prohibiting and Controlling Smoking in Public Places. *Mr. Sterling*.

## Ballot Item No. 27

*Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.

## NOTICES

### GOVERNMENT MOTION

10. *Debated October 24, 25, 28, 29, 31, November 1 and 4, 1985.*
- 

### MOTION OF NON CONFIDENCE UNDER STANDING ORDER 63

1. *Mr. Grossman*—Notice—That this House condemns the Government of Ontario for its incompetence, specifically its failure to discharge its duty to protect the overall interests of the people of Ontario, the Canadian Aerospace Industry and the employees of de Havilland Aircraft Ltd., and its failure to apprise itself fully of all relevant details of the sale of de Havilland to the Boeing Corporation, and its failure to make any adequate representations whatsoever on behalf of those Ontario and Canadian interests, and therefore for these reasons this Government lacks the confidence of this House.
-

## PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
4. *Ms. Bryden*—Resolution—That in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a Charter of Rights for Part-Time Workers be added to both the Employment Standards Act and the Labour Relations Act

to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.

8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.

9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:

- (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
- (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lender) the

judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.

10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
24. *Mr. Ward*—Resolution—That in the opinion of this House, the Province of Ontario, should ensure that adoptive parents and adopted children have access to non-identifying information concerning the birth parents and the rights of access to this non-identifying information, when available, should be guaranteed.
25. *Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.
26. *Mr. Davis*—Resolution—That in the opinion of this House, recognizing the changes in delivery of education programs on a semestered basis across the Province, the experience of the students in Wellington County, the concern of various sectors of the education community over certain technical difficulties, a select committee be established to review the School Boards and Teachers Collective Negotiations Act to ensure that in the future the bargaining process will be carried out in a manner that most effectively guarantees the least possible disruption to the education of our children.
27. *Mr. South*—Resolution—That in the opinion of this House, since many companies, institutions and municipalities in Ontario take water directly from our natural watercourses and groundwater and, after processing it, discharge the used water back into those watercourses, thus putting a substantial stress on the environment, the Government of Ontario should introduce legislation to establish a fund for the restoration and preservation of the environment by assessing a charge to be levied on all large prime water takers in Ontario and based on the amount of water taken.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the

testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.

## MOTIONS RELATING TO THE PROVISIONS OF THE REPORT UPON THE REDISTRIBUTION OF ONTARIO INTO ELECTORAL DISTRICTS

1 to 36. *Debated July 5, October 15, 17 and 25, 1985.*

37. *Mr. Knight*—Motion—That, pursuant to the Order of the House of November 30, 1984, consideration be given by the House to an objection to the provisions of the Report of the Ontario Electoral Boundaries Commission respecting the Electoral District of Halton-Burlington on the grounds set forth hereinafter:

1. The Commission failed to give adequate attention and consideration to geographical, political and demographic factors when planning the redistribution of electoral boundaries within the Province, factors which are specifically provided for by Paragraph 6, subsections (a) through (h) in the June 16, 1983, Resolution of the Legislative Assembly that established the Commission.
2. The Commission failed to give due consideration to the existing and traditional boundaries of Electoral Districts as specified in Paragraph 6, subsection (g), of the June 16, 1983, Resolution of the Legislative Assembly by dividing the Halton-Burlington Riding east and west instead of the traditional north and south.
3. The Commission has ignored the traditional community of interest between Milton and Halton Hills, a community of interest which does not exist to the same degree between Milton and Burlington.
4. The Commission has ignored the fact that within the Region of Halton most agencies consider the North Halton area as a distinct community from the south and have structured most agencies in a manner to reflect this reality.
5. The Commission failed to give and pay proper attention to the physical, family, economic and community of interest factors.
6. And such other objections that the undersigned Members may consider applicable in order to carry out the spirit and terms and conditions of the redistribution of Ontario Electoral Districts.

38. *Mrs. Marland*—Motion—That, pursuant to the Order of the House of November 30, 1984, consideration be given by the House to an objection to the provisions of the Report of the Ontario Electoral Boundaries Commission respecting the Electoral District of Mississauga South on the grounds set forth hereinafter:

1. The Commission failed to give adequate attention and consideration to geographical, political and demographic factors when planning the redistribution of electoral boundaries within the Province, factors which are specifically provided for by Paragraph 6, subsections (a) through (h) in the June 16, 1983, Resolution of the Legislative Assembly that established the Commission.
2. The Commission failed to give adequate attention and consideration to the community or diversity of interests as specified in Paragraph 6, subsection (a) of the June 16, 1983, Resolution of the Legislative Assembly by amalgamating a distinct and separate community, Lawton Heights, east of Cawthra Road, north of the Queen Elizabeth Highway, with traditional organized neighbourhoods represented by homeowners and/or residents' associations contained in the existing Riding of Mississauga South.

In so doing, the Commission ignored the question of unity and community of interest thereby rendering more difficult adequate representation of the people in Parliament.

3. The Commission failed to give due consideration to the topographical features as specified in Paragraph 6, subsection (b) of the June 16, 1983, Resolution of the Legislative Assembly by discounting the influence of existing major roadways, Highway No. 10 on the west and the Queen Elizabeth Highway on the south, which have tended to serve as natural geographic barriers between communities of people.
4. The Commission failed to give due consideration to the existing boundaries of municipalities or wards thereof as specified in Paragraph 6, subsection (f) of the June 16, 1983, Resolution of the Legislative Assembly by discounting the influence of existing traditional municipal wards boundaries which serve to separate and distinguish neighbourhood organizations. By amalgamating a portion of Ward 7 with Ward 1 it appears that the Commission failed to give due consideration to the demands placed on the Member of the Provincial Parliament for the Riding in question, thereby rendering more difficult adequate representation of the people in Parliament.
5. The Commission failed to give due consideration to the existing and traditional boundaries of electoral districts as specified in Paragraph 6, subsection (g) of the June 16, 1983, Resolution of the Legislative Assembly by extending the northern boundary of the Riding to Dundas Street, despite the fact that the current northern boundary, Queen Elizabeth Highway represents a natural extension in comparison to existing ward boundaries, and preserves the physical, social and economic cohesion of the present electoral district.

6. The Commission failed to give due consideration to special geographic considerations, including the accessibility of such regions or the size or shape thereof as specified in Paragraph 6, subsection (h) of the June 16, 1983, Resolution of the Legislative Assembly by increasing the size of the riding in north-south terms and adding a community at the north end separated from the rest of the riding by the Queen Elizabeth Highway.

At the same time, the Commission failed to facilitate the need for ease of transportation and communication, thereby rendering more difficult adequate representation of the people in Parliament.

7. And such other objections that the undersigned Members may consider applicable in order to carry out the spirit and terms and conditions of the redistribution of Ontario Electoral Districts.

39. *Mr. Cordiano*—Motion—That, pursuant to the Order of the House of November 30, 1984, consideration be given by the House to an objection to the provisions of the Report of the Ontario Electoral Boundaries Commission respecting the Electoral District of Downsview on the grounds set forth hereinafter:

1. The Commission failed to give adequate attention and consideration to geographical, political and demographic factors when planning the redistribution of electoral boundaries within the Province, factors which are specifically provided for by Paragraph 6, subsections (a) through (h) in the June 16, 1983, Resolution of the Legislative Assembly that established the Commission.
2. The Commission did not give adequate consideration to all the representations made to the Commission during the course of the Public Hearings.
3. The Commission failed to give adequate consideration to the existing boundaries of the riding, and placed too much emphasis on population Quotas in determining boundaries for the Proposed Electoral District of Downsview.
4. The Commission failed to give adequate consideration to the cultural links uniting the people North of Highway 401 and South of Sheppard

Avenue (between Jane Street on the west and the Allen Expressway on the east) with the people South of Highway 401 and North of the North York city limit (between Jane Street on the west and C.N. railway lines on the east).

5. And such other objections that the undersigned Members may consider applicable in order to carry out the spirit and terms and conditions of the redistribution of Ontario Electoral Districts.

119. *Mr. Gregory*—Enquiry of the Ministry—Would the Minister of Transportation and Communications indicate whether there has been any reassignment of motor vehicle licence depots since July 1, 1985 and, if so, where and for what reason. *December 9, 1985.*
120. *Mr. Gregory*—Enquiry of the Ministry—Would the Minister of Transportation and Communications indicate how many NSF cheques have been collected this year, recognizing that last year 8,000 such cheques were received from citizens for licence plate renewals worth approximately \$700,000. What improvements is the Minister making in his collection process to reduce the number of these cheques and would the Minister advise if any portion of

these uncollectable NSF cheques have been turned over to a collection agency. If not, why not. *December 9, 1985.*

121. *Mr. Gregory*—Enquiry of the Ministry—Would the Minister of Transportation and Communications indicate what he is doing to decrease the number of accidents on the Don Valley Parkway between Lawrence Avenue and York Mills Road, recognizing that this dangerous stretch of the Parkway had the highest number of collisions and the most personal injuries in Metropolitan Toronto in 1984. *December 9, 1985.*
122. *Mr. Ashe*—Enquiry of the Ministry—Would the Minister of Revenue provide the following information regarding the property tax assessment program, and would he list the statistics by assessment region and by municipality: (1) the number of new appeals of assessment in 1982-83, 1983-84, and 1984-85; (2) the number of appeals launched in previous years which were still pending in 1982-83, 1983-84, and 1984-85, respectively; (3) the number of appeals by property owners which have been granted in each of the three periods concerned; (4) a list of which municipalities are assessed under Section 63 or Section 70 of the Assessment Act. *December 9, 1985.*
123. *Mr. Ashe*—Enquiry of the Ministry—Would the Minister of Revenue advise when he is going to act on the request from many municipalities to extend consolidated Section 63 property reassessment on a county-wide or region-wide basis. What formula for agreement will the Minister adopt during the implementation in order that local wishes be recognized. *December 9, 1985.*
124. *Miss Stephenson*—Enquiry of the Ministry—Would the Chairman of Management Board of Cabinet advise if she held a special breakfast to discuss new rules for advertising agencies, and was admission to that breakfast limited to those donating no less than \$250.00 to the Oriole Liberal Association. Did the Minister attend the breakfast and, if so, what members of her staff accompanied her. Were members of her staff given leaves of absence to attend the breakfast and, if not, how much of their day was spent attending the breakfast. Did the Minister drive in a government car to the breakfast. If the Minister did not drive in a government car, what other form of transportation did she take, and was the cost of that covered by government funds in any way, shape or form. Who attended the breakfast; what advertising agencies or others in the advertising business were represented. Where was the meeting held. Who paid for the meeting facility. Did Hershell Ezrin, the Premier's Chief of Staff, attend. How did he get to the meeting. By government car or some other fashion financed by the taxpayer. *December 9, 1985.*
125. *Miss Stephenson*—Enquiry of the Ministry—Would the Chairman of Management Board of Cabinet list the names of all individuals who have been hired as Ministerial drivers, their present salary, their prior employment, and whether each position was advertised and, if so, in what publications, government or otherwise. *December 9, 1985.*
126. *Miss Stephenson*—Enquiry of the Ministry—Would the Chairman of Management Board of Cabinet provide a list of all those employed in contract or

complement positions in the Provincial Secretariat for Resources Development on June 26, 1985, Would the Chairman indicate, as of November 1, 1985, which of these employees had their services terminated, and which have been reassigned elsewhere in the public service and to which ministries. *December 9, 1985.*

## PRIVATE MEMBERS' BUSINESS TO BE DEBATED

*(Precedence in accordance with the draw of July 11, 1985 and pursuant to Standing Order 64 (d).)*

### Ballot Item No. 9

*Second Reading Bill 58, An Act to amend the Time Act. Mr. McClellan. To be debated Thursday, December 12, 1985.*

### Ballot Item No. 10

*Mr. Ward—Resolution—That in the opinion of this House, the Province of Ontario, should ensure that adoptive parents and adopted children have access to non-identifying information concerning the birth parents and the rights of access to this non-identifying information, when available, should be guaranteed. To be debated Thursday, December 12, 1985.*

### Ballot Item No. 11

*Mr. Davis—Resolution—That in the opinion of this House, recognizing the changes in delivery of education programs on a semestered basis across the Province, the experience of the students in Wellington County, the concern of various sectors of the education community over certain technical difficulties, a select committee be established to review the School Boards and Teachers Collective Negotiations Act to ensure that in the future the bargaining process will be carried out in a manner that most effectively guarantees the least possible disruption to the education of our children. To be debated Thursday, December 19, 1985.*

### Ballot Item No. 12

*Mr. Lupusella—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses. To be debated Thursday, December 19, 1985.*

## Ballot Item No. 13

*Mr. South*—Resolution—That in the opinion of this House, since many companies, institutions and municipalities in Ontario take water directly from our natural watercourses and groundwater and, after processing it, discharge the used water back into those watercourses, thus putting a substantial stress on the environment, the Government of Ontario should introduce legislation to establish a fund for the restoration and preservation of the environment by assessing a charge to be levied on all large prime water takers in Ontario and based on the amount of water taken.

## Ballot Item No. 14

*Second Reading* Bill 71, An Act to protect the Public Health and Comfort and the Environment by Prohibiting and Controlling Smoking in Public Places. *Mr. Sterling.*

## Ballot Item No. 27

*Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.

## NOTICES

### GOVERNMENT MOTION

10. *Debated October 24, 25, 28, 29, 31, November 1 and 4, 1985.*
- 

### MOTION OF NON CONFIDENCE UNDER STANDING ORDER 63

1. *Mr. Grossman*—Notice—That this House condemns the Government of Ontario for its incompetence, specifically its failure to discharge its duty to protect the overall interests of the people of Ontario, the Canadian Aerospace Industry and the employees of de Havilland Aircraft Ltd., and its failure to apprise itself fully of all relevant details of the sale of de Havilland to the Boeing Corporation, and its failure to make any adequate representations whatsoever on behalf of those Ontario and Canadian interests, and therefore for these reasons this Government lacks the confidence of this House.

## PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
4. *Ms. Bryden*—Resolution—That in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a Charter of Rights for Part-Time Workers be added to both the Employment Standards Act and the Labour Relations Act

to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.

8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.

9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:

- (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
- (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lender) the

judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.

10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
24. *Mr. Ward*—Resolution—That in the opinion of this House, the Province of Ontario, should ensure that adoptive parents and adopted children have access to non-identifying information concerning the birth parents and the rights of access to this non-identifying information, when available, should be guaranteed.
25. *Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.
26. *Mr. Davis*—Resolution—That in the opinion of this House, recognizing the changes in delivery of education programs on a semestered basis across the Province, the experience of the students in Wellington County, the concern of various sectors of the education community over certain technical difficulties, a select committee be established to review the School Boards and Teachers Collective Negotiations Act to ensure that in the future the bargaining process will be carried out in a manner that most effectively guarantees the least possible disruption to the education of our children.
27. *Mr. South*—Resolution—That in the opinion of this House, since many companies, institutions and municipalities in Ontario take water directly from our natural watercourses and groundwater and, after processing it, discharge the used water back into those watercourses, thus putting a substantial stress on the environment, the Government of Ontario should introduce legislation to establish a fund for the restoration and preservation of the environment by assessing a charge to be levied on all large prime water takers in Ontario and based on the amount of water taken.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the

testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.

29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.

## MOTIONS RELATING TO THE PROVISIONS OF THE REPORT UPON THE REDISTRIBUTION OF ONTARIO INTO ELECTORAL DISTRICTS

1 to 36. *Debated July 5, October 15, 17 and 25, 1985.*

37. *Mr. Knight*—Motion—That, pursuant to the Order of the House of November 30, 1984, consideration be given by the House to an objection to the provisions of the Report of the Ontario Electoral Boundaries Commission respecting the Electoral District of Halton-Burlington on the grounds set forth hereinafter:

1. The Commission failed to give adequate attention and consideration to geographical, political and demographic factors when planning the redistribution of electoral boundaries within the Province, factors which are specifically provided for by Paragraph 6, subsections (a) through (h) in the June 16, 1983, Resolution of the Legislative Assembly that established the Commission.
2. The Commission failed to give due consideration to the existing and traditional boundaries of Electoral Districts as specified in Paragraph 6, subsection (g), of the June 16, 1983, Resolution of the Legislative Assembly by dividing the Halton-Burlington Riding east and west instead of the traditional north and south.
3. The Commission has ignored the traditional community of interest between Milton and Halton Hills, a community of interest which does not exist to the same degree between Milton and Burlington.
4. The Commission has ignored the fact that within the Region of Halton most agencies consider the North Halton area as a distinct community from the south and have structured most agencies in a manner to reflect this reality.
5. The Commission failed to give and pay proper attention to the physical, family, economic and community of interest factors.
6. And such other objections that the undersigned Members may consider applicable in order to carry out the spirit and terms and conditions of the redistribution of Ontario Electoral Districts.

38. *Mrs. Marland*—Motion—That, pursuant to the Order of the House of November 30, 1984, consideration be given by the House to an objection to the provisions of the Report of the Ontario Electoral Boundaries Commission respecting the Electoral District of Mississauga South on the grounds set forth hereinafter:

1. The Commission failed to give adequate attention and consideration to geographical, political and demographic factors when planning the redistribution of electoral boundaries within the Province, factors which are specifically provided for by Paragraph 6, subsections (a) through (h) in the June 16, 1983, Resolution of the Legislative Assembly that established the Commission.
2. The Commission failed to give adequate attention and consideration to the community or diversity of interests as specified in Paragraph 6, subsection (a) of the June 16, 1983, Resolution of the Legislative Assembly by amalgamating a distinct and separate community, Lawton Heights, east of Cawthra Road, north of the Queen Elizabeth Highway, with traditional organized neighbourhoods represented by homeowners and/or residents' associations contained in the existing Riding of Mississauga South.

In so doing, the Commission ignored the question of unity and community of interest thereby rendering more difficult adequate representation of the people in Parliament.

3. The Commission failed to give due consideration to the topographical features as specified in Paragraph 6, subsection (b) of the June 16, 1983, Resolution of the Legislative Assembly by discounting the influence of existing major roadways, Highway No. 10 on the west and the Queen Elizabeth Highway on the south, which have tended to serve as natural geographic barriers between communities of people.
4. The Commission failed to give due consideration to the existing boundaries of municipalities or wards thereof as specified in Paragraph 6, subsection (f) of the June 16, 1983, Resolution of the Legislative Assembly by discounting the influence of existing traditional municipal wards boundaries which serve to separate and distinguish neighbourhood organizations. By amalgamating a portion of Ward 7 with Ward 1 it appears that the Commission failed to give due consideration to the demands placed on the Member of the Provincial Parliament for the Riding in question, thereby rendering more difficult adequate representation of the people in Parliament.
5. The Commission failed to give due consideration to the existing and traditional boundaries of electoral districts as specified in Paragraph 6, subsection (g) of the June 16, 1983, Resolution of the Legislative Assembly by extending the northern boundary of the Riding to Dundas Street, despite the fact that the current northern boundary, Queen Elizabeth Highway represents a natural extension in comparison to existing ward boundaries, and preserves the physical, social and economic cohesion of the present electoral district.

6. The Commission failed to give due consideration to special geographic considerations, including the accessibility of such regions or the size or shape thereof as specified in Paragraph 6, subsection (h) of the June 16, 1983, Resolution of the Legislative Assembly by increasing the size of the riding in north-south terms and adding a community at the north end separated from the rest of the riding by the Queen Elizabeth Highway.

At the same time, the Commission failed to facilitate the need for ease of transportation and communication, thereby rendering more difficult adequate representation of the people in Parliament.

7. And such other objections that the undersigned Members may consider applicable in order to carry out the spirit and terms and conditions of the redistribution of Ontario Electoral Districts.

39. *Mr. Cordiano*—Motion—That, pursuant to the Order of the House of November 30, 1984, consideration be given by the House to an objection to the provisions of the Report of the Ontario Electoral Boundaries Commission respecting the Electoral District of Downsview on the grounds set forth hereinafter:

1. The Commission failed to give adequate attention and consideration to geographical, political and demographic factors when planning the redistribution of electoral boundaries within the Province, factors which are specifically provided for by Paragraph 6, subsections (a) through (h) in the June 16, 1983, Resolution of the Legislative Assembly that established the Commission.
2. The Commission did not give adequate consideration to all the representations made to the Commission during the course of the Public Hearings.
3. The Commission failed to give adequate consideration to the existing boundaries of the riding, and placed too much emphasis on population Quotas in determining boundaries for the Proposed Electoral District of Downsview.
4. The Commission failed to give adequate consideration to the cultural links uniting the people North of Highway 401 and South of Sheppard

Avenue (between Jane Street on the west and the Allen Expressway on the east) with the people South of Highway 401 and North of the North York city limit (between Jane Street on the west and C.N. railway lines on the east).

5. And such other objections that the undersigned Members may consider applicable in order to carry out the spirit and terms and conditions of the redistribution of Ontario Electoral Districts.

## PRIVATE MEMBERS' BUSINESS TO BE DEBATED

*(Precedence in accordance with the draw of July 11, 1985 and pursuant to Standing Order 64 (d).)*

### Ballot Item No. 9

*Second Reading Bill 58, An Act to amend the Time Act. Mr. McClellan. To be debated today.*

### Ballot Item No. 10

*Mr. Ward—Resolution—That in the opinion of this House, the Province of Ontario, should ensure that adoptive parents and adopted children have access to non-identifying information concerning the birth parents and the rights of access to this non-identifying information, when available, should be guaranteed. To be debated today.*

### Ballot Item No. 11

*Mr. Davis—Resolution—That in the opinion of this House, recognizing the changes in delivery of education programs on a semestered basis across the Province, the experience of the students in Wellington County, the concern of various sectors of the education community over certain technical difficulties, a select committee be established to review the School Boards and Teachers Collective Negotiations Act to ensure that in the future the bargaining process will be carried out in a manner that most effectively guarantees the least possible disruption to the education of our children. To be debated Thursday, December 19, 1985.*

### Ballot Item No. 12

*Mr. Lupusella—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses. To be debated Thursday, December 19, 1985.*

## Ballot Item No. 13

*Mr. South*—Resolution—That in the opinion of this House, since many companies, institutions and municipalities in Ontario take water directly from our natural watercourses and groundwater and, after processing it, discharge the used water back into those watercourses, thus putting a substantial stress on the environment, the Government of Ontario should introduce legislation to establish a fund for the restoration and preservation of the environment by assessing a charge to be levied on all large prime water takers in Ontario and based on the amount of water taken.

## Ballot Item No. 14

*Second Reading* Bill 71, An Act to protect the Public Health and Comfort and the Environment by Prohibiting and Controlling Smoking in Public Places. *Mr. Sterling*.

## Ballot Item No. 27

*Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.

## NOTICES

### GOVERNMENT MOTIONS

10. *Debated October 24, 25, 28, 29, 31, November 1 and 4, 1985.*
  12. *Mr. Nixon—Resolution—That the Treasurer of Ontario be authorized to pay the salaries of the civil servants and other necessary payments pending the voting of Supply for the period commencing January 1, 1986 and ending March 31, 1986, such payments to be charged to the proper appropriation following the voting of Supply.*
- 

### MOTION OF NON CONFIDENCE UNDER STANDING ORDER 63

1. *Mr. Grossman—Notice—That this House condemns the Government of Ontario for its incompetence, specifically its failure to discharge its duty to protect the overall interests of the people of Ontario, the Canadian Aerospace Industry and the employees of de Havilland Aircraft Ltd., and its failure to apprise itself fully of all relevant details of the sale of de Havilland to the Boeing Corporation, and its failure to make any adequate representations whatsoever on behalf of those Ontario and Canadian interests, and therefore for these reasons this Government lacks the confidence of this House.*
-

## PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
4. *Ms. Bryden*—Resolution—That in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a Charter of Rights for Part-Time Workers be added to both the Employment Standards Act and the Labour Relations Act

to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.

8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.

9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:

- (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
- (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lender) the

judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.

10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
24. *Debated Thursday, December 12, 1985.*
25. *Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.
26. *Mr. Davis*—Resolution—That in the opinion of this House, recognizing the changes in delivery of education programs on a semestered basis across the Province, the experience of the students in Wellington County, the concern of various sectors of the education community over certain technical difficulties, a select committee be established to review the School Boards and Teachers Collective Negotiations Act to ensure that in the future the bargaining process will be carried out in a manner that most effectively guarantees the least possible disruption to the education of our children.
27. *Mr. South*—Resolution—That in the opinion of this House, since many companies, institutions and municipalities in Ontario take water directly from our natural watercourses and groundwater and, after processing it, discharge the used water back into those watercourses, thus putting a substantial stress on the environment, the Government of Ontario should introduce legislation to establish a fund for the restoration and preservation of the environment by assessing a charge to be levied on all large prime water takers in Ontario and based on the amount of water taken.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and mini-

mizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.

29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.

## MOTIONS RELATING TO THE PROVISIONS OF THE REPORT UPON THE REDISTRIBUTION OF ONTARIO INTO ELECTORAL DISTRICTS

1 to 36. *Debated July 5, October 15, 17 and 25, 1985.*

37. *Mr. Knight*—Motion—That, pursuant to the Order of the House of November 30, 1984, consideration be given by the House to an objection to the provisions of the Report of the Ontario Electoral Boundaries Commission respecting the Electoral District of Halton-Burlington on the grounds set forth hereinafter:
1. The Commission failed to give adequate attention and consideration to geographical, political and demographic factors when planning the redistribution of electoral boundaries within the Province, factors which are specifically provided for by Paragraph 6, subsections (a) through (h) in the June 16, 1983, Resolution of the Legislative Assembly that established the Commission.
  2. The Commission failed to give due consideration to the existing and traditional boundaries of Electoral Districts as specified in Paragraph 6, subsection (g), of the June 16, 1983, Resolution of the Legislative Assembly by dividing the Halton-Burlington Riding east and west instead of the traditional north and south.
  3. The Commission has ignored the traditional community of interest between Milton and Halton Hills, a community of interest which does not exist to the same degree between Milton and Burlington.
  4. The Commission has ignored the fact that within the Region of Halton most agencies consider the North Halton area as a distinct community from the south and have structured most agencies in a manner to reflect this reality.
  5. The Commission failed to give and pay proper attention to the physical, family, economic and community of interest factors.
  6. And such other objections that the undersigned Members may consider applicable in order to carry out the spirit and terms and conditions of the redistribution of Ontario Electoral Districts.

*Signatures of Members supporting this Motion:*

Joseph Cordiano (Downsview)  
 Rick Ferraro (Wellington South)  
 James Henderson (Humber)  
 Remo Mancini (Essex South)  
 Steve Offer (Mississauga North)  
 Claudio Polsinelli (Yorkview)  
 Douglas R. Reycraft (Middlesex)  
 David W. Smith (Lambton)  
 Laurence South (Frontenac-Addington)  
 Chris Ward (Wentworth North)

38. *Mrs. Marland*—Motion—That, pursuant to the Order of the House of November 30, 1984, consideration be given by the House to an objection to the provisions of the Report of the Ontario Electoral Boundaries Commission respecting the Electoral District of Mississauga South on the grounds set forth hereinafter:

1. The Commission failed to give adequate attention and consideration to geographical, political and demographic factors when planning the redistribution of electoral boundaries within the Province, factors which are specifically provided for by Paragraph 6, subsections (a) through (h) in the June 16, 1983, Resolution of the Legislative Assembly that established the Commission.
2. The Commission failed to give adequate attention and consideration to the community or diversity of interests as specified in Paragraph 6, subsection (a) of the June 16, 1983, Resolution of the Legislative Assembly by amalgamating a distinct and separate community, Lawton Heights, east of Cawthra Road, north of the Queen Elizabeth Highway, with traditional organized neighbourhoods represented by homeowners and/or residents' associations contained in the existing Riding of Mississauga South.

In so doing, the Commission ignored the question of unity and community of interest thereby rendering more difficult adequate representation of the people in Parliament.

3. The Commission failed to give due consideration to the topographical features as specified in Paragraph 6, subsection (b) of the June 16, 1983, Resolution of the Legislative Assembly by discounting the influence of existing major roadways, Highway No. 10 on the west and the Queen Elizabeth Highway on the south, which have tended to serve as natural geographic barriers between communities of people.
4. The Commission failed to give due consideration to the existing boundaries of municipalities or wards thereof as specified in Paragraph 6, subsection (f) of the June 16, 1983, Resolution of the Legislative Assembly by discounting the influence of existing traditional municipal wards boundaries which serve to separate and distinguish neighbourhood organizations. By amalgamating a portion of Ward 7 with Ward 1 it appears that the Commission failed to give due consideration to the demands placed on the Member of the Provincial Parliament for the Riding in question, thereby rendering more difficult adequate representation of the people in Parliament.
5. The Commission failed to give due consideration to the existing and traditional boundaries of electoral districts as specified in Paragraph 6, subsection (g) of the June 16, 1983, Resolution of the Legislative Assembly by extending the northern boundary of the Riding to Dundas Street, despite the fact that the current northern boundary, Queen Elizabeth Highway represents a natural extension in comparison to existing ward boundaries, and preserves the physical, social and economic cohesion of the present electoral district.

6. The Commission failed to give due consideration to special geographic considerations, including the accessibility of such regions or the size or shape thereof as specified in Paragraph 6, subsection (h) of the June 16, 1983, Resolution of the Legislative Assembly by increasing the size of the riding in north-south terms and adding a community at the north end separated from the rest of the riding by the Queen Elizabeth Highway.

At the same time, the Commission failed to facilitate the need for ease of transportation and communication, thereby rendering more difficult adequate representation of the people in Parliament.

7. And such other objections that the undersigned Members may consider applicable in order to carry out the spirit and terms and conditions of the redistribution of Ontario Electoral Districts.

39. *Mr. Cordiano*—Motion—That, pursuant to the Order of the House of November 30, 1984, consideration be given by the House to an objection to the provisions of the Report of the Ontario Electoral Boundaries Commission respecting the Electoral District of Downsview on the grounds set forth hereinafter:

1. The Commission failed to give adequate attention and consideration to geographical, political and demographic factors when planning the redistribution of electoral boundaries within the Province, factors which are specifically provided for by Paragraph 6, subsections (a) through (h) in the June 16, 1983, Resolution of the Legislative Assembly that established the Commission.
2. The Commission did not give adequate consideration to all the representations made to the Commission during the course of the Public Hearings.
3. The Commission failed to give adequate consideration to the existing boundaries of the riding, and placed too much emphasis on population Quotas in determining boundaries for the Proposed Electoral District of Downsview.
4. The Commission failed to give adequate consideration to the cultural links uniting the people North of Highway 401 and South of Sheppard

Avenue (between Jane Street on the west and the Allen Expressway on the east) with the people South of Highway 401 and North of the North York city limit (between Jane Street on the west and C.N. railway lines on the east).

5. And such other objections that the undersigned Members may consider applicable in order to carry out the spirit and terms and conditions of the redistribution of Ontario Electoral Districts.

## PRIVATE MEMBERS' BUSINESS TO BE DEBATED

*(Precedence in accordance with the draw of July 11, 1985 and pursuant to Standing Order 64 (d).)*

Ballot Items Nos. 9 and 10. *Debated Thursday, December 12, 1985.*

Ballot Item No. 11

*Mr. Davis*—Resolution—That in the opinion of this House, recognizing the changes in delivery of education programs on a semestered basis across the Province, the experience of the students in Wellington County, the concern of various sectors of the education community over certain technical difficulties, a select committee be established to review the School Boards and Teachers Collective Negotiations Act to ensure that in the future the bargaining process will be carried out in a manner that most effectively guarantees the least possible disruption to the education of our children. *To be debated Thursday, December 19, 1985.*

Ballot Item No. 12

*Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses. *To be debated Thursday, December 19, 1985.*

Ballot Item No. 13

*Mr. South*—Resolution—That in the opinion of this House, since many companies, institutions and municipalities in Ontario take water directly from our natural watercourses and groundwater and, after processing it, discharge the used water back into those watercourses, thus putting a substantial stress on the environment, the Government of Ontario should introduce legislation to establish a fund for the restoration and preservation of the environment by assessing a charge to be levied on all large prime water takers in Ontario and based on the amount of water taken.

## Ballot Item No. 14

*Second Reading* Bill 71, An Act to protect the Public Health and Comfort and the Environment by Prohibiting and Controlling Smoking in Public Places. *Mr. Sterling.*

## Ballot Item No. 27

*Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.

## NOTICES

### GOVERNMENT MOTIONS

10. *Debated October 24, 25, 28, 29, 31, November 1 and 4, 1985.*
  12. *Mr. Nixon—Resolution—That the Treasurer of Ontario be authorized to pay the salaries of the civil servants and other necessary payments pending the voting of Supply for the period commencing January 1, 1986 and ending March 31, 1986, such payments to be charged to the proper appropriation following the voting of Supply.*
- 

### MOTION OF NON CONFIDENCE UNDER STANDING ORDER 63

1. *Mr. Grossman—Notice—That this House condemns the Government of Ontario for its incompetence, specifically its failure to discharge its duty to protect the overall interests of the people of Ontario, the Canadian Aerospace Industry and the employees of de Havilland Aircraft Ltd., and its failure to apprise itself fully of all relevant details of the sale of de Havilland to the Boeing Corporation, and its failure to make any adequate representations whatsoever on behalf of those Ontario and Canadian interests, and therefore for these reasons this Government lacks the confidence of this House.*

## PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
4. *Ms. Bryden*—Resolution—That in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a Charter of Rights for Part-Time Workers be added to both the Employment Standards Act and the Labour Relations Act

to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.

8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.

9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:

- (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
- (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lender) the

judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.

10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
25. *Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.
26. *Mr. Davis*—Resolution—That in the opinion of this House, recognizing the changes in delivery of education programs on a semestered basis across the Province, the experience of the students in Wellington County, the concern of various sectors of the education community over certain technical difficulties, a select committee be established to review the School Boards and Teachers Collective Negotiations Act to ensure that in the future the bargaining process will be carried out in a manner that most effectively guarantees the least possible disruption to the education of our children.
27. *Mr. South*—Resolution—That in the opinion of this House, since many companies, institutions and municipalities in Ontario take water directly from our natural watercourses and groundwater and, after processing it, discharge the used water back into those watercourses, thus putting a substantial stress on the environment, the Government of Ontario should introduce legislation to establish a fund for the restoration and preservation of the environment by assessing a charge to be levied on all large prime water takers in Ontario and based on the amount of water taken.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of

Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.

29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.

## PRIVATE MEMBERS' BUSINESS TO BE DEBATED

*(Precedence in accordance with the draw of July 11, 1985 and pursuant to Standing Order 64 (d).)*

### Ballot Item No. 11

*Mr. Davis*—Resolution—That in the opinion of this House, recognizing the changes in delivery of education programs on a semestered basis across the Province, the experience of the students in Wellington County, the concern of various sectors of the education community over certain technical difficulties, a select committee be established to review the School Boards and Teachers Collective Negotiations Act to ensure that in the future the bargaining process will be carried out in a manner that most effectively guarantees the least possible disruption to the education of our children. *To be debated Thursday, December 19, 1985.*

### Ballot Item No. 12

*Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses. *To be debated Thursday, December 19, 1985.*

### Ballot Item No. 13

*Mr. South*—Resolution—That in the opinion of this House, since many companies, institutions and municipalities in Ontario take water directly from our natural watercourses and groundwater and, after processing it, discharge the used water back into those watercourses, thus putting a substantial stress on the environment, the Government of Ontario should introduce legislation to establish a fund for the restoration and preservation of the environment by assessing a charge to be levied on all large prime water takers in Ontario and based on the amount of water taken.

### Ballot Item No. 14

*Second Reading* Bill 71, An Act to protect the Public Health and Comfort and the Environment by Prohibiting and Controlling Smoking in Public Places. *Mr. Sterling.*

## Ballot Item No. 27

*Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.

### MOTION OF NON CONFIDENCE UNDER STANDING ORDER 63

1. *Debated December 16, 1985.*

## PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
4. *Ms. Bryden*—Resolution—That in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a Charter of Rights for Part-Time Workers be added to both the Employment Standards Act and the Labour Relations Act

to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.

8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.

9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:

- (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
- (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lender) the

judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.

10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
25. *Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.
26. *Mr. Davis*—Resolution—That in the opinion of this House, recognizing the changes in delivery of education programs on a semestered basis across the Province, the experience of the students in Wellington County, the concern of various sectors of the education community over certain technical difficulties, a select committee be established to review the School Boards and Teachers Collective Negotiations Act to ensure that in the future the bargaining process will be carried out in a manner that most effectively guarantees the least possible disruption to the education of our children.
27. *Mr. South*—Resolution—That in the opinion of this House, since many companies, institutions and municipalities in Ontario take water directly from our natural watercourses and groundwater and, after processing it, discharge the used water back into those watercourses, thus putting a substantial stress on the environment, the Government of Ontario should introduce legislation to establish a fund for the restoration and preservation of the environment by assessing a charge to be levied on all large prime water takers in Ontario and based on the amount of water taken.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of

Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.

29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.

## PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
4. *Ms. Bryden*—Resolution—That in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a Charter of Rights for Part-Time Workers be added to both the Employment Standards Act and the Labour Relations Act

to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.
8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.
9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:

- (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
- (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lender) the

judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.

10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
25. *Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.
26. *Mr. Davis*—Resolution—That in the opinion of this House, recognizing the changes in delivery of education programs on a semestered basis across the Province, the experience of the students in Wellington County, the concern of various sectors of the education community over certain technical difficulties, a select committee be established to review the School Boards and Teachers Collective Negotiations Act to ensure that in the future the bargaining process will be carried out in a manner that most effectively guarantees the least possible disruption to the education of our children.
27. *Mr. South*—Resolution—That in the opinion of this House, since many companies, institutions and municipalities in Ontario take water directly from our natural watercourses and groundwater and, after processing it, discharge the used water back into those watercourses, thus putting a substantial stress on the environment, the Government of Ontario should introduce legislation to establish a fund for the restoration and preservation of the environment by assessing a charge to be levied on all large prime water takers in Ontario and based on the amount of water taken.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of

Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.

29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.

## NOTICES

## GOVERNMENT MOTION

10. *Debated October 24, 25, 28, 29, 31, November 1 and 4, 1985.*
-

## PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
4. *Ms. Bryden*—Resolution—That in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a Charter of Rights for Part-Time Workers be added to both the Employment Standards Act and the Labour Relations Act

to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.

8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.

9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:

- (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
- (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lender) the

judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.

10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
25. *Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.
26. *Mr. Davis*—Resolution—That in the opinion of this House, recognizing the changes in delivery of education programs on a semestered basis across the Province, the experience of the students in Wellington County, the concern of various sectors of the education community over certain technical difficulties, a select committee be established to review the School Boards and Teachers Collective Negotiations Act to ensure that in the future the bargaining process will be carried out in a manner that most effectively guarantees the least possible disruption to the education of our children.
27. *Mr. South*—Resolution—That in the opinion of this House, since many companies, institutions and municipalities in Ontario take water directly from our natural watercourses and groundwater and, after processing it, discharge the used water back into those watercourses, thus putting a substantial stress on the environment, the Government of Ontario should introduce legislation to establish a fund for the restoration and preservation of the environment by assessing a charge to be levied on all large prime water takers in Ontario and based on the amount of water taken.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of

Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.

29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.

## PRIVATE MEMBERS' BUSINESS TO BE DEBATED

*(Precedence in accordance with the draw of July 11, 1985 and pursuant to Standing Order 64 (d).)*

### Ballot Item No. 11

*Mr. Davis*—Resolution—That in the opinion of this House, recognizing the changes in delivery of education programs on a semestered basis across the Province, the experience of the students in Wellington County, the concern of various sectors of the education community over certain technical difficulties, a select committee be established to review the School Boards and Teachers Collective Negotiations Act to ensure that in the future the bargaining process will be carried out in a manner that most effectively guarantees the least possible disruption to the education of our children.

### Ballot Item No. 12

*Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.

### Ballot Item No. 13

*Mr. South*—Resolution—That in the opinion of this House, since many companies, institutions and municipalities in Ontario take water directly from our natural watercourses and groundwater and, after processing it, discharge the used water back into those watercourses, thus putting a substantial stress on the environment, the Government of Ontario should introduce legislation to establish a fund for the restoration and preservation of the environment by assessing a charge to be levied on all large prime water takers in Ontario and based on the amount of water taken.

### Ballot Item No. 14

*Second Reading* Bill 71, An Act to protect the Public Health and Comfort and the Environment by Prohibiting and Controlling Smoking in Public Places. *Mr. Sterling.*

## Ballot Item No. 15

*Ms. Bryden*—Resolution—That in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a Charter of Rights for Part-Time Workers be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment.

## Ballot Item No. 16

*Second Reading* Bill 91, An Act to amend the Human Tissue Gift Act. *Mr. Poirier.*

## Ballot Item No. 27

*Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.

## NOTICES

### GOVERNMENT MOTION

10. *Debated October 24, 25, 28, 29, 31, November 1 and 4, 1985.*
-

## PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
4. *Ms. Bryden*—Resolution—That in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a Charter of Rights for Part-Time Workers be added to both the Employment Standards Act and the Labour Relations Act

to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.
8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.
9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:

- (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
- (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lendor) the

judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.

10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
25. *Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.
26. *Mr. Davis*—Resolution—That in the opinion of this House, recognizing the changes in delivery of education programs on a semestered basis across the Province, the experience of the students in Wellington County, the concern of various sectors of the education community over certain technical difficulties, a select committee be established to review the School Boards and Teachers Collective Negotiations Act to ensure that in the future the bargaining process will be carried out in a manner that most effectively guarantees the least possible disruption to the education of our children.
27. *Mr. South*—Resolution—That in the opinion of this House, since many companies, institutions and municipalities in Ontario take water directly from our natural watercourses and groundwater and, after processing it, discharge the used water back into those watercourses, thus putting a substantial stress on the environment, the Government of Ontario should introduce legislation to establish a fund for the restoration and preservation of the environment by assessing a charge to be levied on all large prime water takers in Ontario and based on the amount of water taken.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of

Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.

29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.

## PRIVATE MEMBERS' BUSINESS TO BE DEBATED

*(Precedence in accordance with the draw of July 11, 1985 and pursuant to Standing Order 64 (d).)*

### Ballot Item No. 11

*Mr. Davis*—Resolution—That in the opinion of this House, recognizing the changes in delivery of education programs on a semestered basis across the Province, the experience of the students in Wellington County, the concern of various sectors of the education community over certain technical difficulties, a select committee be established to review the School Boards and Teachers Collective Negotiations Act to ensure that in the future the bargaining process will be carried out in a manner that most effectively guarantees the least possible disruption to the education of our children. *To be debated Thursday, January 9, 1986.*

### Ballot Item No. 12

*Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. ## PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
4. *Ms. Bryden*—Resolution—That in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a Charter of Rights for Part-Time Workers be added to both the Employment Standards Act and the Labour Relations Act

to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.

8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.

9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:

- (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;

- (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lender) the

judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.

10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
25. *Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.
26. *Mr. Davis*—Resolution—That in the opinion of this House, recognizing the changes in delivery of education programs on a semestered basis across the Province, the experience of the students in Wellington County, the concern of various sectors of the education community over certain technical difficulties, a select committee be established to review the School Boards and Teachers Collective Negotiations Act to ensure that in the future the bargaining process will be carried out in a manner that most effectively guarantees the least possible disruption to the education of our children.
27. *Mr. South*—Resolution—That in the opinion of this House, since many companies, institutions and municipalities in Ontario take water directly from our natural watercourses and groundwater and, after processing it, discharge the used water back into those watercourses, thus putting a substantial stress on the environment, the Government of Ontario should introduce legislation to establish a fund for the restoration and preservation of the environment by assessing a charge to be levied on all large prime water takers in Ontario and based on the amount of water taken.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of

Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.

29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.

## PRIVATE MEMBERS' BUSINESS TO BE DEBATED

*(Precedence in accordance with the draw of July 11, 1985 and pursuant to Standing Order 64 (d).)*

### Ballot Item No. 11

*Mr. Davis*—Resolution—That in the opinion of this House, recognizing the changes in delivery of education programs on a semestered basis across the Province, the experience of the students in Wellington County, the concern of various sectors of the education community over certain technical difficulties, a select committee be established to review the School Boards and Teachers Collective Negotiations Act to ensure that in the future the bargaining process will be carried out in a manner that most effectively guarantees the least possible disruption to the education of our children. *To be debated Thursday, January 9, 1986.*

### Ballot Item No. 12

*Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses. *To be debated Thursday, January 9, 1986.*

### Ballot Item No. 13

*Mr. South*—Resolution—That in the opinion of this House, since many companies, institutions and municipalities in Ontario take water directly from our natural watercourses and groundwater and, after processing it, discharge the used water back into those watercourses, thus putting a substantial stress on the environment, the Government of Ontario should introduce legislation to establish a fund for the restoration and preservation of the environment by assessing a charge to be levied on all large prime water takers in Ontario and based on the amount of water taken. *To be debated Thursday, January 16, 1986.*

## Ballot Item No. 14

*Second Reading* Bill 71, An Act to protect the Public Health and Comfort and the Environment by Prohibiting and Controlling Smoking in Public Places. *Mr. Sterling. To be debated Thursday, January 16, 1986.*

## Ballot Item No. 15

*Ms. Bryden—Resolution—*That in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a Charter of Rights for Part-Time Workers be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *To be debated Thursday, January 23, 1986.*

## Ballot Item No. 16

*Second Reading* Bill 91, An Act to amend the Human Tissue Gift Act. *Mr. Poirier. To be debated Thursday, January 23, 1986.*

## Ballot Item No. 27

*Mr. Laughren—Resolution—*That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.

## NOTICES

## GOVERNMENT MOTION

10. *Debated October 24, 25, 28, 29, 31, November 1 and 4, 1985.*
-

## PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
4. *Ms. Bryden*—Resolution—That in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a Charter of Rights for Part-Time Workers be added to both the Employment Standards Act and the Labour Relations Act

to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.

8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.

9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:

- (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
- (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lender) the

judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.

10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
25. *Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.
26. *Mr. Davis*—Resolution—That in the opinion of this House, recognizing the changes in delivery of education programs on a semestered basis across the Province, the experience of the students in Wellington County, the concern of various sectors of the education community over certain technical difficulties, a select committee be established to review the School Boards and Teachers Collective Negotiations Act to ensure that in the future the bargaining process will be carried out in a manner that most effectively guarantees the least possible disruption to the education of our children.
27. *Mr. South*—Resolution—That in the opinion of this House, since many companies, institutions and municipalities in Ontario take water directly from our natural watercourses and groundwater and, after processing it, discharge the used water back into those watercourses, thus putting a substantial stress on the environment, the Government of Ontario should introduce legislation to establish a fund for the restoration and preservation of the environment by assessing a charge to be levied on all large prime water takers in Ontario and based on the amount of water taken.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of

Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.

29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.
